

A**Answers**

- ① **b** to explain the benefits of ecotourism for tourists and locals
- ② **c** to show how the Galapagos succeed in using tourism

B

- ① Reference to one of the following ideas: It raises funds for conservation projects, which protect the environment and the animals that live there. The inhabitants are also encouraged to make sure that endangered animals survive, as this is the source of the local people's income. Without the animals, the tourists wouldn't visit.
- ② running hotels, organising trips to see the wildlife, carrying out cultural events such as traditional dances
- ③ The visitors arrive on boats and sleep on them – so they can be closely watched.
- ④ There would be nothing left there now.

C *Answers*

- ① doomed
- ② Because of the way the tourist groups are organised, they never meet each other, so they imagine that they are the only people on the island.
